Application for Grant Funding

I've just received your letter (and cheque) of 2nd October telling us that Tidworth Town Council has so generously supported us with a £500 grant. That's such exciting news! Thank you so much: your letter has completely made my day.

The Buddy Scheme makes an enormous difference to both the buddies and the service users. We've just had a letter from a buddy about one of her service users that illustrates this perfectly:

"Something's happened to my little ****. When I first met her she was hunched up like a little mouse in the corner of a tiny café in a cubby hole where no one could see her. She didn't make eye contact or even look up, and spoke so quietly she could hardly be heard.

Today, bursting through the door with confidence, in came ****, hair pushed away from her lovely face, head up and a big smile. She was full of beans and praise about the 'Making Changes' course. She reeled off all she had learnt so far and was showing me the work she had done in her folder. It's as if a light has been switched on and she can see properly now. She's stronger and more confident about her future and knows she isn't the only one in the world to be feeling the way she has for so long. She's enjoyed sharing and listening to others and can't wait for the next session. Many thanks to Nikki, Janine and Sarah, who facilitate the course, you've changed ****'s life already and she's not even half way through the course. She is a success in the making."

I hope we can bring stories like this to Tidworth.

With best wishes

Andrew Farrow
